NEW FOREST NATIONAL PARK AUTHORITY

RESOURCES, AUDIT AND PERFORMANCE COMMITTEE – 2 FEBRUARY 2015

MEMBERS' ATTENDANCE MONITORING

Report by: David Stone, Corporate Services Manager

1 Summary:

- 1.1 At the meeting of the Resources, Audit and Performance Committee on 10 November 2014, members considered the mid-year progress against the Authority's key performance indicators and noted that Member overall participation in attending meetings was low at 77%. The Committee accordingly agreed that it would be helpful for Members' attendance information to be submitted to the January Authority meeting for discussion.
- 1.2 However, in discussing this proposal with the Chairman and Deputy Chairman of the Authority, it was felt that it was preferable for reporting of member attendance to commence from next year, i.e. from 1 April 2015 with the member attendance information being reported at the end of 2015/16 to the Resources, Audit and Performance Committee.

Recommendation:

It is recommended that reporting of member attendance at meetings commence from 1 April 2015 with the member attendance for 2015/16 being reported to the Resources, Audit and Performance Committee.
